Madras, 15th July 1937.

In this office notice R.O.C. No. 4316/37 C.S. dated 16th April 1937, M.R. Ry. P. Velu Mudaliyar, President, Panchayat Board, Anamallikuppam in Arkonam taluk, was called upon to show cause within fifteen days from the date of its receipt why he should not be removed from the office of president under sub-section 4 (1) of the Madras Local Boards Act for the reasons that he did not convene the monthly meetings of the Panchayat Board regularly, that notices of the Board's meetings were not served on all the members of the Board, that he failed to produce on the date of inspection, i.e., 15th July 1937, the cash balance of Rs. 37-3-0 and that no vouchers were maintained for the expenditure. The Special Officer will continue to be in charge of the panchayat till it is reconstituted.

ARMY DEPARTMENT.

JUDICIAL.

Delhi, 10th December 1924.

No. 1680.—In the matter of the Charitable Endowments Act, VI of 1890, and in the matter of the Silver Wedding Fund.

Whereas the Fund known as the Silver Wedding Fund (hereinafter called the said Fund) subscribed as an offering to Her Majesty the Queen Empress as a token of loyalty and affection on the occasion of the 25th Anniversary of Their Imperial Majesties' Wedding was, at the request of Her Majesty, vested in the Treasurer of Charitable Endowments for the Punjab (by Notification No. 3152 published in Part I of the *Gazette of India*, dated the 25th October 1919), for the purposes thereon mentioned:

And whereas by Notification No. 965, published in Part I of the *Gazette of India*, dated the 2nd August 1924 the said Fund as it then existed was transferred to the Treasurer of Charitable Endowments for Bengal for the purposes aforesaid:

And whereas it being found that the said Fund is greater than is required for the purposes set out in the said Notification No. 3152, dated the 25th October 1919, Her Majesty the Queen-Empress graciously intimated her willingness that, subject to the sanction of the Court being obtained, the purpose for which the said Fund should be applied, be extended so as to include the purposes set out in the following recital:

And whereas in a suit in the High Court of Judicature at Fort William in Bengal, No. 2267 of 1924, intituled Advocate-General of Bengal and another *vs.* Captain S. And it was ordered and decreed that the defendants the Administrators of the said Fund, give effect to the objects of the said Trust in the manner hereinbefore declared and apply the said Fund towards assisting those who come under the said objects as extended by the said decree, and the Administrators of the Fund have accordingly applied to the Governor-General in Council to amend the said Notifications Nos. 3152 and 965.

And whereas the said Fund now comprises the securities and cash specified in Schedule "A."

Now in pursuance and exercise of the powers conferred by and by virtue of sections 4 and 7 of the Charitable Endowments Act, 1890, and any other powers thereto enabling in supersession of the said Notification No. 3152, dated the 25th October 1919, and Notification No. 965, dated 2nd August 1924, it is HEREBY ORDAINED by the Governor-General in Council that the said Fund, which is now vested as the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal under Notification No. 965, dated the 2nd August 1924, on the terms therein mentioned, shall now be vested upon the following terms, that is to say, that the said Fund and the income thereof shall be devoted to and applied for the education and assistance of children and dependants of Indian officers and soldiers (including non-combatants) who rendered military service under the Crown during the Great War or who took part or may hereafter take part in subsequent war-like operations in accordance with the Scheme settled by the Governor-General in Council on the application of the Administrators under powers conferred by sections 6 and 7 of the said Charitable Endowments Act, a copy of which is set forth in Schedule "B" hereto.

4. If a candidate who belongs to one Indian State selects a centre in another Indian state he should submit his application for admission to the examination through the educational authorities of the State to which the candidate actually belongs, so that they may have an opportunity of questioning the selected centre and thereby the candidate is asked to reside in the State of which he is a resident. If such objection is not taken, candidates may consider that their names will be registered for examination at the centres nominated by them in their applications.

5. No notice will be taken of the application of any candidate who selects a centre which is not in the above list, and no candidate will be allowed to name more than one centre. No candidate will on any account be allowed to change the centre of examination entered in his application which must invariably be the place where he is employed or ordinarily resides or should it not be a centre the place nearest to it where the examination is held. A candidate appearing for examination at a centre other than the one mentioned by him in his application must be prepared to have his examination cancelled.

6 Candidates whose Examinations, either Written or Oral and Practical, cannot be arranged for at any place must, at their own expense, proceed to Madras or to the

nearest centre where they are held in the subjects in which they appear. The Oral and Practical Exam nations in such subjects as require them will be held at those places only where satisfactory arrangements can be made for the conduct of such examinations.

7. To guard against disappointment in the case of such of the Oral and Practical Examinations as may be held either before or after the Written Examinations, candidates are recommended to refer to Part I B of the *Fort St. George Gazette* from time to time, as no information will be sent to them

SCALE OF FEES, WHEN AND WHERE TO BE REMITTED BY CANDIDATES

8. The following is the scale of fees to be paid by candidates for admission to the examinations :—

	Lower grade.	Higher grade.
	Rs.	Rs.
For each subject	8	12

Candidates who have passed the examination in Indian Music may appear for the same grade at a subsequent month for the *Practical Test* alone, with a view to have their proficiency, either in vocal or instrumental music tested.

The scale of fees for this added oral Practical Test is rupees three (Rs. 3) only for the Lower grade and rupees six (Rs. 6) only for the Higher grade.

NOTE.—No candidate will be permitted to come up for examination in more than one grade in the same subject at the same time.

10. (a) Candidates who are employees of the Government of Madras and who desire to be exempted from payment of the prescribed fees should send in (or so as to reach their office on or before the dates specified under paragraphs 6(3) and 7(d)) their applications through the Head of the office, in which they are employed, together with a certificate from the appointing authority to the effect—

(2) To circulate to colleges and other educational institutions in India information of a helpful character collected by the Central Bureau in London concerning the educational, financial and social facilities obtaining in educational centres outside India.

(3) To communicate with the Central Bureau on behalf of students before they start or on behalf of their parents when they are abroad.

(4) To advise prospective candidates for the Indian Civil Services and other competitive examinations held in Delhi.

Students of the Madras Presidency—and of the Indian States whose colleges are affiliated to the Madras University—who contemplate going to England or other countries for further study and relatives and friends of those who have already gone, are invited to correspond with the Secretary, Room No. 13, New University Buildings, Chepauk, Madras, from whom all necessary information can be obtained.

As all private applications from students sent direct to the International Adviser in London or to Educational authorities in Great Britain are forwarded to the Secretary of the Madras University Students' Information Bureau for his enquiry and recommendations, much needless worry and delay will be saved for students by their getting in touch with the Secretary of Madras.

The Bureau maintains a small library consisting of the prospectuses, syllabus and calendars of educational institutions and Universities in Great Britain, America and other countries, and students and other enquirers will be allowed the use of the library on all week days—excepting holidays—between 11 a.m. and 4 p.m.

M. ABDUL HAMID,
Secretary.

Madras, 22nd July 1937.

No. 12.—In virtue of the powers delegated under clause XI of Government Notification No. 485, dated 13th July 1936, published on pages 1229 and 1230 of the *Fort St. George Gazette*, dated 29th September 1936, Part I, as amended by Government Notification No. 101, dated 15th March 1924, and in supersession of Commissioner's Notification No. 11, dated 13th July 1936, the Commissioner of Excise and Separate Revenue hereby prescribes the following rules for the issue, etc., of licences under section 12 of the Madras Abkari Act I of 1886, for the lopping of toddy-producing trees and for the drawing of toddy therefrom, to have effect on the following local areas from the 1st day of October 1937:—

(1) The villages in the Agency tracts specified in Schedule I annexed.

(2) The rest of the Presidency with the exception of the Nilgiris district excluding the Gudalur taluk and the Attapadi valley of the Palghat district.

(3) The Banganapalle State.

2. Tree-tapping licences shall be issued on the application—

(a) of licensed toddy shopkeepers in areas in which the toddy shops are sold by auction at licensed separately;

(b) of persons having the exclusive privilege of manufacture and supply of coconut toddy arrack;

(c) of tappers on their own application in the South Kanara district provided that the application for licence is accompanied by an application for a permit for the transport of the toddy drawn to some particular shop and that the latter application is countersigned or acknowledged to be correct by the shopkeeper to whose shop the toddy is to be taken;

(d) of tree-owners generally, and of sweet-toddy tappers in the villages of the Agency tracts specified in Schedule I, in the East Godavari district, in the West Godavari district, in the Repalle and Bapatla talaks of the Guntur district and in the Kavali, Atmakur, Nellore and Kovur talaks of the Nellore district, for not more than five trees in the case of tree-owners and three trees in the case of sweet-toddy tappers for the drawing of toddy required for domestic consumption, but not for sale;

(e) of toddy shopkeepers or renters in the Mysore territory in the Civil and Military Station, Bangalore, and in the Banganapalle State desiring to obtain toddy from trees growing in British territory;

(f) of toddy shopkeepers in the Pudukottai State desiring to obtain toddy from trees in British territory provided that the application is certified or countersigned by the Sub and Abkari Inspector of the State, and of toddy renters in the Cochin State, and

(g) of any member of a hill tribe whether a tree-owner or not residing in Sirumalluvan, Adiviyarasu, Madhuvanda and Mudavattava villages of Virugapatam taluk or in any of the villages of the Virugapatam district specified in Schedule II, for not more than five trees for each household for domestic consumption, but not for sale.

In cases (b), (f) and (g) the licences may be issued in the name of the applicant himself or of his nominee, and in cases (a), (c), (d) and (e) in the name of the applicant only.

3. Persons wishing to apply for the grant of tree-tapping licences must first pay the fees for the first instalment thereof, as the case may be, due on account of the trees which they desire to tap, into a Government treasury, which may be either the district treasury or a taluk treasury. Divisional officers may also empower heads of villages to receive payments on account of tree-tax and to grant receipts therefor. In the case of persons mentioned in rule 2 (a) and (c) the tree-tax must be paid into a Government treasury of the taluk in which the shop is situated or to an authorised village peruvai in the same taluk, and the renters concerned should affix a declaration in the application to the effect that they have obtained a licence permanent or temporary for a shop specifying also the name and number of the shop for which trees are to be marked. The shop licences should be produced before village munsifs in cases where the application and fees are presented to these officers. Pudukottai renters, when applying for trees in British territory, must pay the full tree-tax into a British treasury at the rates prevailing in British territory.

4. (1) Applications for the grant of tree-tapping licences must be made in the prescribed form to the Inspector, Excise Department, in charge of the circle in which the trees are situated. Forms may be obtained from the Inspectors of the Excise Department and from all Tahsildars and Deputy Tahsildars and will be supplied free of charge. Applications put in by shopkeepers and tappers need not be stamped; those put in by other persons must bear a court-fee stamp of one anna. In any case, if the fees have been paid into a treasury, the application must contain a certificate of payment from the treasury officer; if payment has been made to a village head, the receipt must accompany the application. Mysore renters and shopkeepers applying for trees in British territory should pay the tree-tax into the Mysore Amildar's treasury and should present before the British Tahsildar or Deputy Tahsildar concerned, along with the application in Form T. T. 3 the receipt with the Amildar's certificate at the foot to the effect that the applicant is a person entitled to take out a tree-tapping licence in Mysore. Applications from Mysore renters for licences for the tapping of trees in villages in the British territory in which there are trees belonging to Government should invariably be got countersigned by the village headman of the village in which the trees are situated in token of the correctness of the statement concerning the ownership of the trees. The tree-tax should be calculated at the higher rate of the rates are not the same on the two sides of the frontier. The procedure for the marking of trees in British territory for toddy shops in the Civil and Military Station, Bangalore, will be similar to that laid down for the marking of trees in British territory for Mysore shops.

(2) Applications for tree-tapping licences in the South Kanara district should be countersigned by the owner or person in possession of the trees intended to be marked in token of his consent.

5. Toddy shopkeepers in tracts adjoining the Mysore territory will also be allowed to tap trees in Mysore and the Civil and Military Station, Bangalore, for the supply of toddy to their shops on payment of the whole of the tree-tax in one instalment into the British treasuries of the Madras Government and subject to such restrictions regarding permits, etc., as may be prescribed in the behalf. The rate of tree-tax to be paid in such cases will invariably be the higher rate in force, if the rate is not the same on the two sides of the frontier.

The British and Mysore Governments reserve to themselves the right to impose, in addition to the tree-tax, a rent for the use of trees belonging to them, the sums when imposed being payable by British and Mysore licensees alike. The arrangements agreed to by the Madras and the Mysore Governments with regard to the issue of licences for tapping trees in either territory on the application of farmers or shopkeepers in the other do not prevent the reservation of trees in any specified area in the Madras Presidency or in Mysore with a view to afford relief therein or for other sufficient reason and the mere payment of tree-tax into a British or Mysore treasury does not entitle an applicant to tapping licences for trees so reserved.

6. (1) Toddy shopkeepers in British territory adjoining the Banganapalle State will be allowed to tap trees in the State on payment of tree-tax into the Kulkuntla Sub-Treasury, the rate being the same as in the Kurnool district. Toddy shop keepers in Banganapalle State will be allowed to tap trees in the adjoining British territory on payment of tree-tax in the treasury of the taluk in which the trees stand. Toddy shopkeepers in British territory adjoining the Pudukottai State will be allowed to tap trees in that State on payment of tree-tax to that State at the higher of the rates prevailing on both sides of the frontier.

(2) Toddy shopkeepers in British territory adjoining Cochin State may be allowed to tap trees in that State on payment of full tree-tax to that State at the higher of the rates prevailing on both sides of the frontier.

A Cochin State renter applying for trees in British territory must pay full tree-tax in one instalment at the higher of the rates prevailing on both sides of the frontier, into a British treasury, and present to the British Tahsildar or Deputy Tahsildar concerned an application which must be certified or countersigned by the Circle Inspector of the division within whose jurisdiction the shop is situated. The British Circle Inspector to whom the application is forwarded shall have discretion to refuse to comply with an application either wholly or in part. The currency of the licences and permits issued by the British Circle Inspector shall correspond with the periods for which licences for tapping are granted under the tree-tapping rules in

force in the Cochin State. The licences and permits issued by the State renter by the British Inspector shall be liable to suspension or cancellation at the request of the Cochin State Excise officer.

7. Persons applying for the issue of licences will be responsible to Government for all sums payable as tree-tax on account of the trees licensed to be tapped.

8. (1) Unless there are special reasons for refusing to mark the trees, the Inspector on receipt of an application will at once take steps for the marking of the trees by an officer of rank not lower than a Sub-Inspector and for the issue of the licence. The Inspector may also at his discretion refuse to comply with an application either wholly or in part if he considers that the trees applied for are in excess of the legitimate demand of the shop. Applicants for trees shall point out to the marking officer, when required by the latter to do so, the trees applied for by them. Should they fail to do so after reasonable notice the fees paid by them shall be liable to be forfeited at the Collector's discretion.

(2) In the East Godavari district, in the West Godavari district, in the Bapatla and Repatla taluks of the Guntur district, in the Kavali, Attakur, Nellore and Kovur taluks of the Nellore district and in the villages of the Agency tracts specified in Schedule I, trees intended for the drawing of fermented toddy and those for the drawing of sweet toddy shall, as far as possible, be in separate topes or blocks.

9. Collectors may, from time to time, prescribe the minimum number of trees to be entered in an original application. They may also direct that the trees situated in one village only shall be included in an application.

10. Toddy shall not be drawn from any toddy tree nor shall any pot be attached to any toddy tree until the tree has been marked by the proper officer.

11. For palmyra and date trees in the Presidency and for Dasiwal (Areca Hispida) trees in South Kanara, tree-tapping licences shall be annual, that is, in force from 1st October or any subsequent date to the 30th September immediately following and for cocanut and sago trees they shall be half-yearly, that is in force from 1st October or any subsequent date to the 31st March immediately following and from 1st April or any subsequent date to the 30th September immediately following except in the case of the trees which have been illicitly tapped, on which the full tree-tax may be levied.

TENDER FOR CONSTRUCTING A COMPOUND WALL IN THE GOVERNMENT HOSPITAL AT DEVARA.

Tenders will be received by the Executive Engineer, Kistna Central Division, at his office at Bezwada up to 4 p.m. on 9th August 1937 for constructing a compound wall in the Government Hospital at Devara.

The tender should be in the prescribed form obtainable from the Executive Engineer's office. The tenders will be opened by the Executive Engineer, Kistna Central Division, at Bezwada at 3 p.m. on 10th August 1937.

2. Tenders must be submitted in sealed covers, and should be addressed to the Executive Engineer, Kistna Central Division, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorized officer who shall produce with his tender, satisfactory evidence of his authorization. Such tendering corporation may be required before the contract is executed to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money, a sum of rupees two hundred only into the branch of the Imperial Bank of India or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned to the credit of Revenue Deposits on behalf of the Executive Engineer of the Kistna Central Division and enclose with his tender the chalan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. This refund will be authorized by the Executive Engineer by suitable endorsement on the chalan. The earnest money will not be received in cash or currency notes by the Public Works Department officers, save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him, whatever their denominations may be.

The earnest money will be retained in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of rupees seventy-five only in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 68 of the Standard Preliminary Specification of the Madras Detailed Standard Specifications shall be retained as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Division office on the date fixed in the written intimation from such officer or to enter into the required agreement or to make the security deposit as defined in this paragraph, shall entail forfeiture of the earnest money. The written agreement to be entered into between the contractor and the Government shall be the foundation of the rights of both the parties and the contract shall not be deemed to be complete until the agreement has first been signed by the contractor and then by the proper officer authorized to enter into contracts on behalf of Government.

5. The tenderer shall examine closely the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein and sign the Departmental office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender and rates which shall be for finished work on site. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 3 p.m. on office days in the office of the Executive Engineer, Kistna Central Division.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary specification." Materials conforming to the Kistna Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specifications. Samples of materials as called for in the standard specifications or in the tender notice or as required by the Executive Engineer in any case shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor after examination of the source of materials defined in the Descriptive Specification sheet is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification sheet, he shall at once clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of conveyance, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) test, inspection and rejection of defective materials and work;
(2) carriage;
(3) construction plant;
(4) water and lighting;
(5) clearing up during progress and for delivery;
(6) accidents;
(7) delays;
(8) particulars at payment; and
(9) responsibilities and liabilities of contractors.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be distinctly understood that the Government does not accept any responsibility for the correctness or completeness of the schedule and that the schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Kistna Central Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas and in sums of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show

the totals of each item and the grand total of the whole contract and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract, such lump sum agreeing with the total amount of schedule "A." The schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or corrections of figures. Corrections, where unavoidable, should be made by crossing out, initialling, dating and writing

10. Tenders offering a percentage deduction from or increase on the estimate approach, and those not submitted in proper form or in due time will be rejected. Rates of lump sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract forms, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized; and if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The places from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form.

13. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work items from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of the programme will be the date on which the site (or premises) is handed over to the contractor.

Guntur, 25th July 1937.

TENDER FOR THE WORK OF EXCAVATING BRANCH No. 6 OF THE APPAPURAM CHANNEL BRANCH OF THE CODAMUR CANAL AND CONSTRUCTING MASONRY WORKS IN THE BRANCH CHANNEL.

TENDERS will be received by the Executive Engineer, Guntur Division, at his office at Guntur up to 4 p.m. on 23rd August 1937 for the above work.

The tender should be in the prescribed form obtainable from the Executive Engineer's office and will be opened by the Executive Engineer, Guntur Division, at the office on 23rd August 1937.

2. Tenders must be submitted in sealed covers, and should be addressed to the Executive Engineer, Guntur Division, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorized officer who shall produce with his tender, satisfactory evidence of his authorization. Such tendering corporation may be required before the contract is executed to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money, a sum of rupees one hundred and fifty only into the branch of the Imperial Bank of India or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned to the credit of revenue deposits on behalf of the Executive Engineer of the Guntur Division and on loss with his tender the chalan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderers on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender whichever is earlier. The refund will be authorized by the Executive Engineer by suitable endorsement on the chalan. The earnest money will not be received in cash or currency notes by the Public Works Department officers, save in exceptional cases where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him, whatever their denomination may be.

The earnest money will be returned in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of rupees one hundred only in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental new lump sum contract form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 68 of the Standard Preliminary Specification of the Madras Detailed Standard Specifications will be retained as security for the due fulfilment of this contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Divisional office on the date fixed in the written intimation from such office or to enter into the required agreement or to make the security deposit as defined in this paragraph, shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein and sign the Divisional office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender and rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 4 p.m. on office days in the office of the Executive Engineer, Guntur Division.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification sheet. The best class of materials to be obtained from the quarries or other sources defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications or in the tender notice or as required by the Executive Engineer in any case shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor after examination of the source of materials defined in the Descriptive Specification sheet is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of subsistence, tools, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) test, inspection and rejection of defective materials and work;
(2) carriage;
(3) construction plant;
(4) water and lighting;
(5) clearing up during progress and for delivery;
(6) accidents;
(7) delays;
(8) particulars of payment; and
(9) responsibilities and liabilities of contractor.

The contractor should clearly peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be distinctly understood that the Government does not accept any responsibility for the correctness or completeness of the schedule, and that the schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Guntur Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on the schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas and a sums of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract. This schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or corrections of figures. Corrections, where unavoidable, should be made by crossing out, initialing, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the schedule amount, and those not given in proper form or in duplicate will be rejected. Rates of lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized; and if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor.

Period after date of commencement.	Percentage of work completed (based on contract lump sum amount).
	Not more than
Three months	20
Six months	40
Nine months	70
Twelve months	100

13. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorizing others to receive payment on the contractor's behalf.

14. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

15. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

16. No payment will be separately made for baling water from foundation and forming protective bunds, clearing jungle at site and diversion of roads required during execution. The rates quoted by the tenderer must include the above-mentioned charges.

17. The tenderer may however mention an earlier date which fact will be taken into consideration and this earlier date will thereafter be considered as the date fixed for completion of the work.

18. The qualifications of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. The tenderer should therefore state in clear terms whether they employ such technical staff and if so to give the qualifications of such staff and the extent to which they will be employed on the work.

19. Seigniorage will not be levied for materials taken from Government quarries or situations.

20. No hire rent will be charged on materials stacked on Public Works Department canal banks during the course of conveyance.

4. When a tender is to be accepted the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of rupees one hundred only in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 56 of the Standard Preliminary Specification of the Madras Detailed Standard Specifications will be retained as security for the due fulfilment of the contract. If such security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to enter into the required agreement or to make the security deposit as defined in the paragraph shall entail forfeiture of the earnest money. The written agreement to be entered into between the contractor and the Government shall be the foundation of the rights of both the parties and the contract shall not be deemed to be complete until the agreement has first been signed by the contractor and then by the proper officer authorized to enter into contracts on behalf of Government.

5. The tenderer shall examine closely the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification, contained therein, and sign the Divisional office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender and return which shall be for finished work in use. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 3 p.m. on office days in the office of the Executive Engineer, Nellore Division.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specification shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., where in certain materials are to be obtained will be given in the Descriptive specification sheet. The best class of materials to be obtained from the quarries mentioned in the said sheet shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications or in the tender notice or as required by the Executive Engineer in any case shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor after examination of the specimens of materials as listed in the Descriptive Specification sheet is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of engineers, cells, etc.

8. The tenderer's particular attention is drawn to the next para and clauses in the standard "Preliminary Specification" dealing with—

(1) test, inspection and rejection of defective materials and work;
(2) earthwork;

It shall be distinctly understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Nellore Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas and in terms of three pies. The rates should be written both in words and figures and the unit in words. The tenderer should also show the totals of each item and the grand total of the whole contract and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract. This schedule accompanying the lump sum tender shall be written legibly and free from erasures, overwritings or corrections in figures. Corrections, where unavoidable, should be made by crossing out, initialing, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings specifications, or quantities accompanying same will be recognized; and if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress and the dates for the completion of the whole work and its several parts.
